Reason behind selection results*(Which skills helped you the most to get the job?):*

Cyber security, Coding skills

Preparation Strategy*(How did you prepare for the non-interview rounds? How did your preparation evolve for the interview rounds?):*

For the online test I practiced competitive coding from leetcode. For Interview rounds I worked on my resume, DSA, OOP, DBMS, OS and Computer Networks.

Resources to prepare from -

Necessary Resources*(Must Do):*

There is nothing like a must do as long as you keep learning by yourself. I used GFG and Leetcode for my preparation.

Advanced Resources*(Can Do)*:

Anything else that you'd like to share with the students:

Be confident, work on your communication skills (both verbal and non-verbal) and study the company before any interview. Best wishes.
